DETAILED ACTION

Election/Restrictions

Combination/Subcombination

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-10 and 29, drawn to a system and method for modeling a physical site, classified in class 702, subclass 155.
 - II. Claims 11-28, drawn to a computer-aided drafting module for a surveying system, classified in class 702, subclass 150.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as combination (Invention I) and subcombination (Invention II). Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because Invention I does not require means for assigning attributes to objects representing features of a physical site. The subcombination Invention II has separate utility such as assigning attributes to objects representing features of a physical site.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 2863

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
6. In accordance with MPEP 812.01, as revised July 1996, because of the complexity of issues involved in the following election of species, no telephone call was made to the Applicant to receive an election.
